“RIEDLIN'S SELECT” and “BAVARIAN” BEERS

---

THE “PURE AND GOOD BEERS”

---

**I**NVALIDS and convalescents oftentimes find recovery slow and tedious, and are unable to regain their strength. Nature at this time requires the aid of a stimulant that will soothe and build up the nervous system and at the same time impart strength to the rest of the body. Good Pure Beer is best adapted for this purpose as it derives its soothing and tonic effects from the Hops, while the Barley Malt imparts the nourishing elements that permanently build up the system. Barley Malt being predigested is easily assimilated by the blood and is agreeable to the weakest stomach.

Beer contains an exceedingly small amount of Alcohol (3 ½% absolutely necessary) and extract matter of such nutritious nature and in such quantities that, aside of its refreshing qualities, it may be justly classed as liquid bread. The large and rapidly increasing consumption of Beer is in a great measure due to the people recognizing its great value as a food that builds up the system, imparting health and strength in connection with its very refreshing and invigorating qualities. Possessing as it does these nutritive properties, it is particularly in the homes that Good Pure Beer is found to be a requisite and valuable necessity.

To obtain the desired results it is absolutely necessary, however, that you demand and obtain Good and Pure Beer, as the ordinary Beers are decidedly lacking in both flavor and nourishment.
